ARCTIC SUMMER

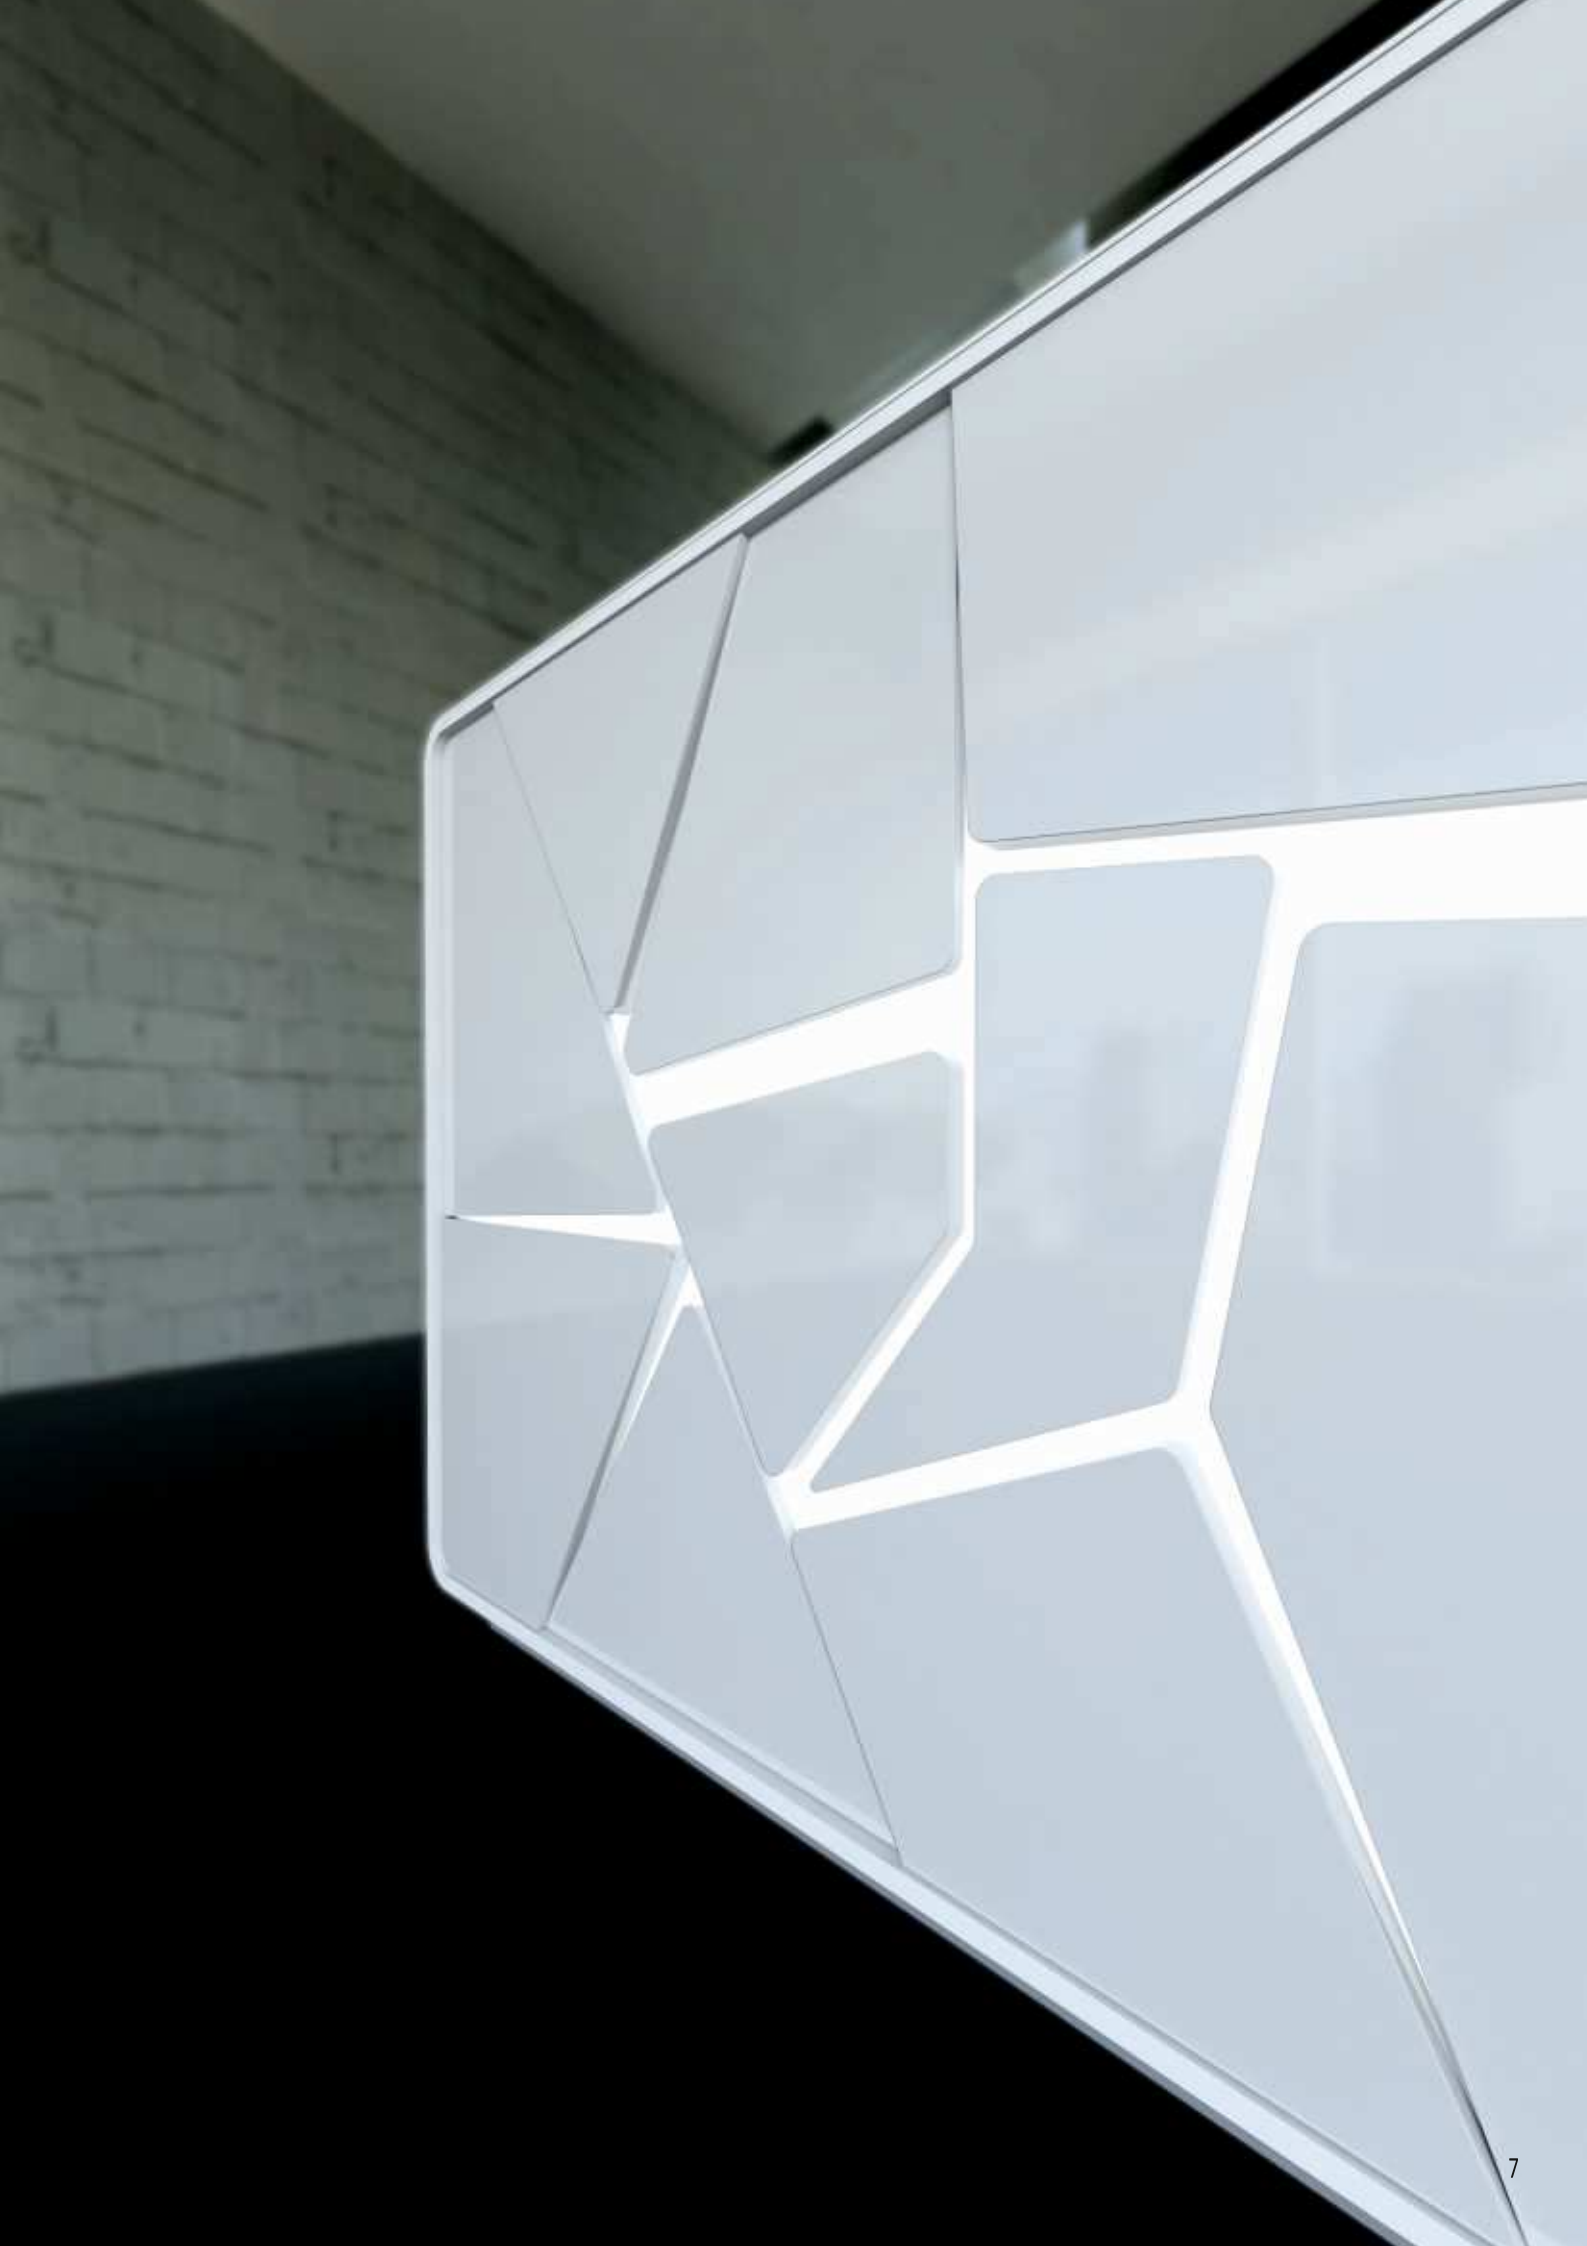

Designer
Charles Kalpakian

White & just white. White means purity, perfection and confidence.
The desktop is made from pastel white lacobel glass, so are the front and sides of the reception desk.
The pattern of Arctic Summer emphasises fluorescent white light.

Opposites attract. Arctic summer - ice flow warmed up with the glow-tube lighting. The fancy design of this reception desk is intended for people with imagination, who appreciate elegance and dislike monotony. Charles Kalpakian, designer: - The reception desk drawing's come from the street lines, graffiti, and full and empty. The light allows to read the object and gives the focus on them in a big space.

ORGANIC

While creating Organic we listened to the best architect –nature itself. Organic , cubic form filled with organic shapes, takes its design straight from nature to provide a bit of relaxation in today's stressful world.

The irregular design of the reception desk stimulates the imagination. The spider web with reflecting sunlight, or perhaps cells of a living organism? The natural design is emphasised by backlighting system of fluorescent light. The final impression is completed by the glass top that gives the reception splendor and nobility.

White makes the reception desk look fresh and gives plenty of options to arrange the place allowing individual ideas: white goes well with every other color. Soft design attracts attention.

The modular system allows you to create the reception desk corresponding to your own needs.

The stylish design can decorate the whole front of the counter or it can protrude on the left or right side.

LINEA

Minimum ornaments, maximum style.

Clear lines, light design and the shiny white of Linea will bring design to any room.

It is detail that makes a good design, little elements adding character and the quality of materials they are made of. Soft contours of the Linea reception desk are emphasized by white of lacobel glass and glamorous counter made of tempered glass.

Linea turn your attention with its style and elegance. LED light installed at the bottom of the desk adds the sophisticated style and gives you the impression that the room is bigger. Front and top elements are made of glass, while the corners are decorated with noble stainless steel.

DRITTA

Dritta adjusts to the nature of the place where you want it to be. An optional counter top made of lacobel glass in black and white or a version with illuminated bright light placed under the counter.

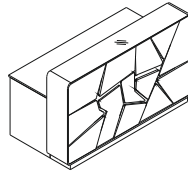

Dritta tempts you with its mystery and elegance.
 It does not have unnecessary ornaments because it is a form of decoration on its own.
 Dritta in Italian means straight, without curves.
 Therefore, it is only made from the rectangular blocks varied by the diversity of used materials.
 The new counter may be Italian brunette made of brown plane tree,
 but it is also available in a light version: light plane tree.
